DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claim rejections based on Renga (WO 93/09111) and Sturwold (US 4,885, 104) have been fully considered and are persuasive. The rejections of claims have been withdrawn. Since all claims are cancelled in order to overcome statutory 101 rejections and 112 rejections, the arguments are moot.
2. Applicant correctly argues that the Renga teaches the compound of formula II but does not teach the use of the compound in fuel oils. Renga therefore does not anticipate or render obvious the new claims 18, 19, 26, 27, 34, 35 which are therefore allowable.
3. Applicant clarifies previous misinterpretation of specification by examiner on what constitutes the glycerol carbonate esters (according to page 3 and page 4 of the specification) and further argues that Sturwold does not teach in particular the compounds of formula I and II. Sturwold does not particularly recite the compounds of formula I and II and do not teach the use of their mixture in fuels or as fuel oil. Therefore, the reference by Sturwold does not anticipate or render obvious the new claims, 18, 19, 26, 27, 34, 35 which are therefore allowable.

Response to Amendment

4. The amendment dated 5/5/2008 has been considered and entered for the record. Applicant's amendment overcomes the claim objections and rejections previously made.

5. Newly submitted claims 12 – 17, 20 – 25, and 28 – 33 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: They are not directed fuel or solvents comprising the compounds of formula I and II but to new methods of removing oil from articles, removing grease from leather, removing ink and/or adhesive from an article, manufacturing metal and/or cement, metal cutting, and making oil-based paints.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 12 – 17, 20 – 25, and 28 – 33 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03. On 8/1/08, Mr. Oblon agreed to cancel non elected claims 12 – 17, 20 – 25, and 28 – 33.

Examiners amendment

Please cancel claims 12 – 17, 20 – 25, and 28 – 33.

Allowable Subject Matter

6. Claims 18, 19, 26, 27, 34, 35 are allowed.

Statement of Reasons for allowance

7. Claims 18 and 19 are allowable, for the following reasons: The claims are to fuel mixtures comprising two compounds of formula I (alkyl esters of fatty acids) and formula II (glycerol carbonate fatty acid ester). Prior art teaches fuel oil comprising alkyl esters of fatty

Art Unit: 1797

acids of formula I (See: US 4,032,550; 6,387,138; 5,103,041; 4,904,279; 20020056468). The compound of formula II is not taught in prior art as a fuel oil additive. The closest prior art by Wollenberg (US 4,746,447) teaches lubricating oil comprising a similar compound having an OH substituent in the place of COOR group in claims 18, 19. Wollenberg does not teach that the compound can be used as an additive in fuels. Therefore, the compound of formula II is not found to be used in fuel mixtures and the claims are allowable.

Dependent claims 26, 27, 34, 35 are likewise allowable as they depend on allowed claims 18 and 19 discussed above.
